

The screenshot shows a Windows Forms application window with the title "create a 2 dimension array and store album name and singer name". The window has a light gray background and a blue border. Inside the window, there are two "Album Name:" labels, each followed by a text box. Below these, there is a "Next" button. At the bottom, there is a "Result" label.

using System.ComponentModel;
using System.Data;
using System.Drawing;
using System.Linq;
using System.Text;
using System.Threading.Tasks;
using System.Windows.Forms;

namespace _2_DimentionalArray_Ex
{
    public partial class Form1 : Form
    {
        public Form1()
```

```

{
    InitializeComponent();
}

//Craeting an 2 d array of 1 row and 2 column
string[,] album = new string[1, 2];
StringBuilder sb=new StringBuilder();

private void button1_Click(object sender, EventArgs e)
{
    album[0,0]=textBox1.Text;
    album[0,1]=textBox2.Text;
    sb.Append("Album Name:" + album[0, 0] + ":Singer Name:" + album[0,
1]);
    label3.Text=sb.ToString();
}
}
}

```
