

A screenshot of a Windows application window titled "Form1". The window has a standard Windows title bar with minimize, maximize, and close buttons. The main content area is light gray and contains a form with four text input fields stacked vertically, each preceded by a label: "Roll.No:", "Name:", "Email:", and "Mobile No:". Below these fields is a single "Ok" button. At the bottom center of the form area, the text "Student Information" is displayed.

using System.Windows.Forms;

namespace ClassInWindowForm
{
    public partial class Form1 : Form
    {
```

```

public Form1()
{
    InitializeComponent();
}

private void label2_Click(object sender, EventArgs e)
{

}

private void button1_Click(object sender, EventArgs e)
{
    Class1 s = new Class1();
    s.rno = Convert.ToInt32(textBox1.Text);
    s.name = textBox2.Text;
    s.email = textBox3.Text;
    s.mobilenno = Convert.ToInt32(textBox2.Text);
    StringBuilder sb = new StringBuilder();
    sb.Append("Roll No:" + s.rno + "\n");
    sb.Append("Name:" + s.name + "\n");
    sb.Append("Email:" + s.email + "\n");
    sb.Append("Mobile No:" + s.mobilenno + "\n");
    label5.Text= sb.ToString();
}
}
}

```
